

MEETING THE PROJECT MANAGEMENT CHALLENGE

2004

Biography

Walt Majerowicz, PMP

Senior Manager/PAAC Contract - Computer Science Corporation

Mr. Majerowicz is the Integrated Program Team Leader on the Program Analysis And Control (PAAC) contract responsible for the Planning & Scheduling discipline at NASA's Goddard Space Flight Center. He manages 11 major flight project task orders that provide performance-based support to flight projects in the areas of: scheduling, configuration management, data management, management information systems, and general project support. Additionally, he leads the scheduling effort for the Structure and Evolution of the Universe (SEU) Program at Goddard.

Mr. Majerowicz also provides planning and scheduling advisory consulting support to other NASA projects and conducts project management training courses for the civil service and contractor work force. Previously, he was the Planning & Schedule Manager on the Tropical Rainfall Measuring Mission (TRMM), a major in-house NASA project, and the Polar Operational Environmental Satellites (POES) Program, a major out-of-house effort.

Prior to joining CSC, Mr. Majerowicz held numerous positions in program planning and control at The Boeing Company and the Martin Marietta Corporation. He is a frequent speaker on project scheduling and Earned Value Management topics at program and project management conferences.

Mr. Majerowicz holds an M.B.A. from the University of Baltimore and is a certified Project Management Professional (PMP) with the Project Management Institute (PMI). He is also a member of PMI's and its College of Performance Management (CPM) and College of Scheduling (COS). He is also a member of the CPM faculty.
